### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: **the specific limitations of** "a cartridge frame comprising a linear member having a first attachment portion and second attachment portion spaced apart from the first attachment portion by a second distance wherein the second distance being approximately equal to the first distance between the supply spindle and the take-up spindle" in the combination as claimed in **claim 35**; and **"an elongated member coupling the supply roll and the take-up roll** wherein the take-up roll is being movable relative to the supply roll to separate the first and second apertures by a second distance approximately equal to the first distance while the polishing pad is attached to the supply roll and take-up roll" in the combination as claimed in **claim 40**, are not anticipated or made obvious by the prior art in the examiner's opinion. **For example**, Ohno et al. (5,727,989) disclose a polishing pad cartridge in an apparatus having a supply and take-up spindles spaced apart by first distance, the polishing pad cartridge comprising: a supply roll (33) and take-up roll (34) rotatably coupled to a frame (see figs 3,7); and an elongated polishing pad (2) having a first end attached to the supply roll and a second end attached to the take-up roll. **However**, the art of record considered as a whole, alone or in combination fails to provide or suggest "a cartridge frame comprising a linear member having a first attachment portion and second attachment portion spaced apart from the first attachment portion by a second distance wherein the second distance being approximately equal to the first distance between the supply spindle and the take-up spindle; and **an elongated member coupling the supply roll and the take-up roll** wherein the take-up roll is being movable relative to the supply roll to separate the first and second apertures by a second

distance approximately equal to the first distance while the polishing pad is attached to the supply roll and take-up roll”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
